AUDIO-VISUAL LIBRARY SERVICE

The NF/PFG Library Service is looking to implement an 'audio-visual' service by acquiring and maintaining a library of audio-video resource materials.....to be utilized by support groups and others at a modest rental fee.

There is a variety of excellent resource materials available, but the initial acquisition costs of such materials.....serves to discourage and restrict the use of this media.

It is suggested that your tax-deductible contribution to the NF/PFG Library Fund.....would help to enable this service.

Won't you please respond today with your contribution to help provide and expand PFG services to Parents and Families of Gays?
